A. Identification of Inventor(s), Title of Invention and

Inventor(s) name: LeRoy G. Hagenbuch

Title of invention: Apparatus and Method Responsive to the

It is believed that this invention is clearly of no interest
from a security standpoint as it relates to apparatus and method
for measuring the weight of loads carried by off-road vehicles

such as mining trucks. Microprocessor-based electronics located on the truck receive analog data from weight sensors, as well as other types of sensors, and manipulate the data to provide useful information indicative of truck performance. The information is also useful in controlling future truck activity in order to best utilize available trucks in a fleet.

B. Expedited handling

Expedited handling of this petition for license is requested and a check is enclosed in the sum of \$120.00 for the fee pursuant to 37 CFR §1.17(h).

C. Telephone notification of issuance of license

Please notify John B. Conklin of the issuance of the license by telephone at (312) 822-9666.
